

SEP 5 1980

TO: Ar. de Leder

J.J. Schultz Container Company, Lemont Illinois

Ronald Kovach  
Engineering Unit II

File

I recommend that we close out this subject case. Please refer to the memo in the file from Ron Kovach to Bill Miner, dated 8-12-80 on the subject, for details.

However, in general, the drum washing operations at the site have been stopped. All of the contaminated soil at the site has been removed.

Analysis of the area's groundwater does not indicate any significant level of contamination.
